

Repositioning Health Care through Relationships and Health Information Technology – Let's Make a Difference!

The First International Conference on Health Information Technology Advancement (ICHITA – 2011)

Fetzer Center, Western Michigan University

Friday, October 28, 2011

7:30 a.m. – 4 p.m.

The first International Conference on Health Information Technology Advancement is co-hosted by the Center for Health Information Technology Advancement at Western Michigan University and the Relationship-Centered Care Network of Southwest Michigan. More details about the upcoming conference, WMU-CHITA and RCCSWMI can be found at: www.wmich.edu/chita/ichita

REGISTRATION FEE

Registration fee includes a copy of the conference transactions, continental breakfast and lunch. Registration fees are \$100, or \$75 if registered by September 1.

CONFERENCE OBJECTIVES

This conference is to inform the community about the critical issues and opportunities in health care and how they can be tackled and capitalized through relationships and the infusion of health information technologies. In specific, the conference is aimed at the following objectives:

- 1) Describe new directions for health care delivery and utilization of HIT
- 2) Understand the impact of HIT and relational partnerships on health care delivery and service
- 3) Identify new multifaceted roles of the consumer, health care provider, and information technology professional in the health care space augmented by health information technology

WHO SHOULD ATTEND?

Health care professionals, consumers, educators, students, IT professionals, health care researchers, and HIT vendors.

CONFERENCE PUBLICATION

The accepted papers will be gathered in "Transactions of the International Conference on Health Information Technology Advancement – 2011." Publication of accepted papers is contingent upon conference registration.

The best quality papers from those accepted will be published in a special issue of the International Journal of Healthcare Information Systems and Informatics (ISSN: 1555-3396) to appear in 2012.
